

WORKSHOP ON MOTION CAPTURE: ABAI CENTER OF EXCELLENCE BRIEFES THE FACULTY OF LOYOLA KAUSHAL KENDRA

On Wednesday, January 12th 2022, Abai Centre of Excellence, Bangalore briefed faculty of DDU KAUSHAL Kendra, Loyola College on the techniques used to reproduce the movements of a real person in a virtual character. The faculty had an eye opening session through the online workshop. Mr. Sarath from Manipal University (former visiting faculty at Loyola KAUSHAL Kendra) facilitated the session with ABAI.

The creation of ABAI Centre of Excellence, Bangalore makes Karnataka the first ever state with AVGC (Animation, Visual effects, Gaming and Comics) policy in India, with State of the art technology and post production unit.

After a brief presentation on motion capture, the faculty had an interactive session with the experts at ABAI. The centre which is created to spread knowledge, skills and expertise in the field of Animation and visual effects around the nation opened its doors for the teaching faculty and students of KAUSHAL Kendra for training purposes.

The department of KAUSHAL Kendra are thankful to ABAI and Mr. Sarath, for the wonderful online workshop explaining how movements are transferred to a 3D digital model to animate it with the recorded movements. Motion capture and implantation, in addition to having applications in making video games, movies, also has multiple uses in the field of medicine, sports etc. So it was a pertinent session for the faculty members.
