Call for Papers

FEB **23** 2023

ABOUT

The Department of Economics, Loyola College, Chennai is organizing a one-day National Symposium on 23rd February 2023. The Symposium provides a platform for Academicians, Industrialists and Research Scholars across the country to deliberate on issues of regional, national and international significance that shape our economy. It seeks to address key issues affecting the future of India, by examining its relationship with economic policies and decision making. The Loyola Economics Association for Development (LEAD) always identifies contemporary and relevant economic issues as the theme for the symposium each year. Our Symposiums has been presided over by eminent personalities like Dr. A.P.J. Abdul Kalam, Dr. C. Rangarajan, Mr. Mani Shankar Aiyar and Dr.M.S.Swaminathan.

LEAD SYMPOSIUM, 2023

"The Dravidian Model: Prospects and Challenges"

The economic growth in the neo-liberalistic approach skyrocketed like never before in the history of the world. The subprime crisis of 2008, followed by a health crisis in the form of the Covid-19 pandemic, crippled the growth stories worldwide. The need to act for sustainable development deliberates its urgency.

Confining the context to India, various policies were implemented and tested during its 75 years of Independence to achieve sustainable development. The consciousness regarding the importance of economic policy in shaping sustainable development for a commoner has increased significantly in recent years.

The process of implementing various policies to achieve the objectives is recognised as a model in the economic fraternity. The top-down and bottom-up models, the demand side and the supply side models, the economic popular and the social popular, the growth driven and the development driven are few ways to classify the model. The recent debates and discussions on the capacity of various models in effectively driving the State provide prospects and limitations of the same.

The term 'Dravidian Model' has initiated discussions across India. In this regard, the Department of Economics is interested in conducting a National Symposium roping academicians, policymakers, bureaucrats, politicians, industrialists and students to throw their valuable insights on the topic.
