

## Re Visiting The Classics

The discussion on 'Re visiting the Classics' organized by Prof. D.Christina on August 30, 2019 was quite interactive. The discussion was held in the smart classroom in department of Physics. Dr.Felicita, Prof. Ashwin, Prof. Aldrin, Prof. Tisha and Prof. Sweety attended the program. Although we did not have many student participants because of outreach and the extended weekend due to which many students had left for their home towns. The discussion bordered on the significant contradictory themes of the novel. The interaction bordered on a contemporary perception of Huck and his socio cultural document. The student participants had equally unravelled some areas in the novel which yields itself to layers of interpretation. It was interesting to observe the students comparing Huck with Scout Finch in ,To Kill A Mocking bird, and analyse Huck's preference for the wilderness.

A great sense of gratification prevailed when the students where quite skeptical to the apparent romantic elements in the novel and viewed the open endedness of the novel as an Avenue for its time tesdedness.

The student revealed that they were eager to participate in such discussions on the classics in the following weeks.
