Date of the Event: 15/11/2019

Time: 10:00 a.m. to 1:00 p.m.

Participants: 149 of 1st year and 2nd year UG Students

“An Entrepreneur is one who fulfils the ‘hidden’ needs of the society. In the recent times, need for an entrepreneur is ever increasing, which many might not realize it, but our daily lifestyle requires young and budding entrepreneurs. There is a constant change required by everyone and that change need to be better suitable for everyone”. On this note, the Loyola Institution’s Innovation Council (LIIC) conducted a seminar on ‘Entrepreneur’s Story’ to trace the story behind the idea, execution and the struggles. In the current scenario, it is much easier for an entrepreneur to create a job than to find one. The Loyola Institution’s Innovation Council has taken this measure to ensure that it creates an environment for budding entrepreneurs to experiment and innovate leading to a better society for everyone.

Mr. Abdul Rehman, founder of Webxeto Technology Solutions was invited as the resource person and as the Chief Guest for the workshop on Entrepreneur’s Story. The founder of three companies, Mr. Abdul Rehman detailed his experience on how loneliness makes one realize objectivity is key in taking decisions. The chief guest elucidated his journey as an entrepreneur covering the following points:

- 1. An Entrepreneur’s duty in the society.**
- 2. Why is participation important?**
- 3. It’s not how much money you make; it is how you make it.**
- 4. How can you gauge your career?**

LOYOLA INSTITUTION'S INNOVATION COUNCIL (LIIC) LOYOLA COLLEGE (AUTONOMOUS), CHENNAI – 34.

1) An Entrepreneur's duty in the society

It is an entrepreneur's duty to create a better world for the people, to develop products and service and solve problems which people face in their lives. The resource person highlighted his personal instance during his younger days on how he was keen on indulging in the habit of trying to ask questions and find answers to these questions.

2) Why is Participation important:

What we hear most of the time is the importance of participation. We miss hundred percent of the shots that we don't. Failure is nothing but a step in time to reflect on one's actions.

3) It's not how much money you make; it is how you make it

As the 'future of India' we need to make sure that we make our country a better country and that is possible only if we stop indulging in wrongdoing. Our chief guest claimed that making money isn't the hardest thing we have to face but ensuring that the money we have made is completely justified by the efforts and hard work we have put in.

4) Taking a psychometric test can help one gauge their career

Our chief guest laid his trust on online websites like 16personalities.com to help in finding career paths. He said that youngsters usually get lost and sometimes misguided in choosing the best career choice for them. It is best to weigh one's strengths and weaknesses and then go to battle.
