Report on NGO Field Visit - All The Women's Life Saving Centre

Prolife Forum - Shift II

The Prolife club and its members on 20.2.2019 went for an NGO visit to All women life saving centre - Rashtriya life saving society India, ground floor of nelson towers, Chennai. All the members visiting the NGO were asked to assemble at 12:30 PM. All of them were welcomed whole heartedly after which there was an introductory session in which the faculty of the NGO spoke about the NGO and its functions.

This NGO is a twenty year old institution which works for the welfare of women and it has also indulged itself in welfare activities like conducting certificate courses for swimming and also plays a key role in creating awareness among the people about the importance of the first aid.

Tarun Murugesh who is a retired member of the NGO addressed all the students and spoke to them about the importance of having a life which is safe and secured. He asked students to inculcate good habits and a healthy lifestyle which could make their lives better and thereby improve their health. He also gave illustrations and taught the students how to provide the first aid in emergency situations. He was instrumental in bringing about awareness in the minds of people.

During the session the students were provided with refreshments. At the end of the session the prolife club presented Mr. Tarun a gift as a token of appreciation and to make this visit a memorable one.

The NGO visit was a new experience for the students as it gave them exposure and gave an idea of an NGO and its functions. It gave them an opportunity to emulate great personalities like retired Tarun Murugesh who has worked so hard for the society and inspired them to do something for the society.

Thank You
