

Website Office
www.loyolacollege.edu

Our website is an indicator of the activities of Loyola College. It reports all most all the activities of our college, based on the timely and proper information provided by the concerned authorities.

Newly Added Features:

The site has been renovated to give a new look to the existing site. The color, structure and the content frame has been altered.

New submenus have been created in this site for Dean of Media Studies, Dean of External Affairs and development, LDO, Staff Directory and ED Cell.

Quick Links facility has been added in all the pages.

All the **Images** have been redesigned and fixed in a new frame like format with caption.

As said last year more data about our staff has been entered and it has been linked to their respective department pages in the site. The concept of **staff profile** gives us the basic academic details about the concerned staff. It can also be searched in department wise format.

The details in the staff profile is not only useful for the students and their colleagues. It also helps others to know more about Loyola and its academic strength.

Apart from this there is one more Link called **staff directory**. Unlike the staff profile which gives more details about the academic activities the staff directory gives some basic details like name, address etc.

For the sake of past students **Alumni Login** has been created. Alumni has been given the option of updating their records. Their login is password protected. They can change their password. Apart from this they can view the details about their colleagues either Alumni no. wise, name wise, batch wise and department wise.

This helps them to maintain their relationship for ever. It's a small effort from the Loyola through the web to keep the loyolites united. The web family is an extension of their physical presence in the campus.
