Explain the market opportunity, business model, customer acquisition strategy, and realistic sources of revenue. Support your idea with honest financial projections, including costs, pricing, break-even potential, scalability, and the social and economic impact it can create, before defending your venture in a five-minute Q&A with industry professionals.

PANEL DISCUSSION

The panel discussion on “Sustainable Business in a Dynamic Environment” will explore how businesses can adapt and grow while balancing profitability, innovation, and sustainability. Industry experts will share insights on navigating changing economic, technological, environmental, and social challenges.
