

## Exploring the world of Short Film Making

With a view to enhance the production skills of media students, a two-day workshop on Short Film Making was organised on 15<sup>th</sup> – 16<sup>th</sup> September, 2015.

Eminent editor Mr. Lenin felicitated the occasion with his presence. Students were divided into groups and were assigned individual mentors. These Mentors assigned projects to students which were later appreciated at length. They gave a perfect outline of the workshop to the students regarding all the three stages of film making (pre-production, production and post-production).

Two days were set aside for the post-production work on sound (Dubbing, Sound Mixing, BGM, etc.) at JAEL Studios.

After Editing, students were provided with specific slots to use the JAEL studio for post-production (Sound) Dubbing, Sound Mixing, BGM and other processes were also done.
