| Finished goods                                | Rs.260000                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                               |          |                                               |           |                                        |            |                           |             |                       |              |                     |              |                    |             |                                    |  |               |           |                  |           |                |           |

#### SECTION C – K4 (CO3)

**Answer any TWO of the following in 100 words each. (2 x 10 = 20)**

|     |                                                                                                                                                                                                |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 9.  | Explain the objectives of Financial Management.                                                                                                                                                |
| 10. | <p>Ascertain financial leverage from the information given below:</p> <p>Net worth : Rs. 2000000<br/> Debt equity ratio: 3:1<br/> Interest Rate = 10%<br/> Operating profit = Rs. 1800000.</p> |
| 11. | Analyse the factors determining dividend policy.                                                                                                                                               |

12. Calculate optimum cash balance under Baumol model from the particulars given below:

|                                       |            |
|---------------------------------------|------------|
| Annual Cash requirement               | Rs. 150000 |
| Fixed cost per transaction            | Rs. 15     |
| Interest rate on marketable solutions | 18%        |

**SECTION D – K5 (CO4)**

**Answer any ONE of the following in 250 words**

**(1 x 20 = 20)**

13. Following information is available with regards to the capital structure of Edwards LTd:

|                          | Amount (rs.) | After Tax Cost of capital |
|--------------------------|--------------|---------------------------|
| Debentures               | 1200000      | 5%                        |
| Preference Share capital | 400000       | 10%                       |
| Equity Share Capital     | 800000       | 15%                       |
| Retained Earnings        | 1600000      | 12%                       |

You are required to calculate the weighted average cost of capital (WACC).

14. Two firms R and S are identical except in the method of financing. Firm R has no debt, while firm S has Rs. 300000 8% Debentures in financing. Both the firms have a Net Operating Income (EBIT) of Rs.1,20,000 and equity capitalization rate of 12%. The corporate tax rate is 35%. Calculate the value of the firm using MM approach.

**SECTION E – K6 (CO5)**

**Answer any ONE of the following in 250 words**

**(1 x 20 = 20)**

15. Project X has an initial investment of Rs. 500000. Its cash flows for 5 years are Rs.150000 Rs.180000, Rs.150000, Rs. 132000 and Rs.120000. Estimate the following 1) Payback period b) Discounted Payback at 10% c) NPV at a discount rate of 10%

16. From the following information, prepare a statement showing the estimated working capital requirements: Budgeted Sales = Rs. 260000 p.a.

Analysis of cost and profit of each unit.

Rawmaterials- Rs 3

Labour- Rs 4

Overheads- Rs 2

Profit- Rs 1

Selling Price Per Rs 10  
Unit

It is the estimated that

(a) Pending use, raw materials are carried in stock for three weeks and finished goods for two weeks.

(b) Factory processing will take 3 weeks.

(c) Suppliers will give five weeks credit and customers will require eight weeks credit.

It may be assumed that production and overheads accrue evenly throughout the year.
