 Bring out the significance of the subject 'macro economics'. Distinguish between stock and Flow. List out any four difficulties of social accounting. What do you understand by liquidity Trap? State Keynes's psychological law of consumption. Distinguish between MEC and MEI. What is meant by real sector equilibrium? PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand - in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	
 2. Distinguish between stock and Flow. 3. List out any four difficulties of social accounting. 4. What do you understand by liquidity Trap? 5. State Keynes's psychological law of consumption. 6. Distinguish between MEC and MEI. 7. What is meant by real sector equilibrium? PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	Answer any FIVE questions in about 75 words each.(5×4=20)
 3. List out any four difficulties of social accounting. 4. What do you understand by liquidity Trap? 5. State Keynes's psychological law of consumption. 6. Distinguish between MEC and MEI. 7. What is meant by real sector equilibrium? PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	1. Bring out the significance of the subject 'macro economics'.
 4. What do you understand by liquidity Trap? 5. State Keynes's psychological law of consumption. 6. Distinguish between MEC and MEI. 7. What is meant by real sector equilibrium? PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	2. Distinguish between stock and Flow.
 5. State Keynes's psychological law of consumption. 6. Distinguish between MEC and MEI. 7. What is meant by real sector equilibrium? PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	3. List out any four difficulties of social accounting.
 6. Distinguish between MEC and MEI. 7. What is meant by real sector equilibrium? PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	4. What do you understand by liquidity Trap?
 7. What is meant by real sector equilibrium? PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	5. State Keynes's psychological law of consumption.
PART-B Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 17. Discuss Keynes's theory of Income determination.	6. Distinguish between MEC and MEI.
Answer any FOUR questions in about 300 words each. (4×10=40) 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Image: Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	7. What is meant by real sector equilibrium?
 8. Distinguish between micro & macro Economics. 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	PART-B
 9. Explain the methods of measuring national income. 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	Answer any FOUR questions in about 300 words each.(4×10=40)
 10. Critically analyze Say's Law of market. 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	8. Distinguish between micro & macro Economics.
 11. Explain Effective Demand -in detail. 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	9. Explain the methods of measuring national income.
 12. What are the factors affecting investment other than RI? 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	10. Critically analyze Say's Law of market.
 13. What are the leakages of multiplier? 14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	11. Explain Effective Demand -in detail.
14. Explain the classical theory of employment. PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. (2×20=40) 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	12. What are the factors affecting investment other than RI?
PART-C Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination.	13. What are the leakages of multiplier?
 Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	14. Explain the classical theory of employment.
 Answer any FOUR questions in about 900 words each. (2×20=40) 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	
 15. Diagrammatically explain static, dynamic and comparative static analysis. 16. Explain different concepts of national income and list out the difficulties of measuring national income in India. 17. Discuss Keynes's theory of Income determination. 	PART-C
16. Explain different concepts of national income and list out the difficulties of measuring national income in India.17. Discuss Keynes's theory of Income determination.	Answer any FOUR questions in about 900 words each.(2×20=40)
income in India. 17. Discuss Keynes's theory of Income determination.	15. Diagrammatically explain static, dynamic and comparative static analysis.
	17. Discuss Keynes's theory of Income determination.
