Department of Advanced Zoology and Biotechnology

29 August 2026

PTA MEETING REPORT

Date: 29 August 2026

Venue: Smart Room

Department: Department of Advanced Zoology and Biotechnology

The Parent–Teacher Association (PTA) Meeting was organized by the Department of Advanced Zoology and Biotechnology on **29 August 2026** in the Smart Room. The meeting provided an opportunity for parents and faculty members to interact, review the academic progress of students, appreciate the achievements of the department, and discuss suggestions for the overall development and well-being of the students.

The programme commenced with the **Prayer Song** presented by the Zoology Choir, following an invitation from the Master of Ceremonies, **Dr. Theresia Mathews**. The **Welcome Address** was delivered by the Head of the Department, **Dr. V. Pushpa Rani**, who warmly welcomed the parents and expressed her appreciation for their active participation and continued support.

A video presentation highlighting the **various achievements, academic activities, outreach initiatives, and other accomplishments of the department during the academic year 2025–2026** was screened for the parents. Following the presentation, the Head of the Department invited the parents to share their feedback, suggestions, and concerns to facilitate continuous improvement in the functioning of the department.

The interaction session began with words of appreciation from the parents. The father of **Ms. Dorothy, III UG**, appreciated the faculty members for encouraging students to pursue research and motivating them to develop their research interests to higher levels. A parent of **Ms. Bensica, II PG**, appreciated the department for providing students with multiple responsibilities and tasks, which contribute to their holistic development.

The father of **Mr. Prasanth, II PG**, brought to the attention of the department that he had not been receiving messages and requested that important communications be shared with parents regularly. He assured to the parent that the matter will be looked into and also asked him to check if the updated phone number is given. He also requested that parents be informed in advance about **outreach programmes** and the arrangements regarding students returning home on days when they participate in such programmes. The suggestions were duly noted for further consideration.

Parents of first-year students expressed their appreciation for the support extended by senior students to their wards. They also expressed their happiness in knowing that their children are comfortable and well-adjusted within the college campus.

The Head of the Department advised parents to regularly monitor their wards' **CIA marks and attendance through the respective online portals**. Parents were also reminded to ensure that their wards had completed the **examination registration process and paid the prescribed examination fees** within the stipulated time.

.

During the interaction, parents enquired about opportunities for collaboration and academic exchange with foreign universities. The Head of the Department informed them that student exchange programmes are available through the college. Information regarding **fee concessions** was also shared, and parents were advised to communicate their requirements well in advance to facilitate the necessary arrangements.

One of the parents raised a concern regarding difficulties faced in registering for the examination. The Head of the Department assured the parent that the matter would be looked into and appropriate assistance would be provided.

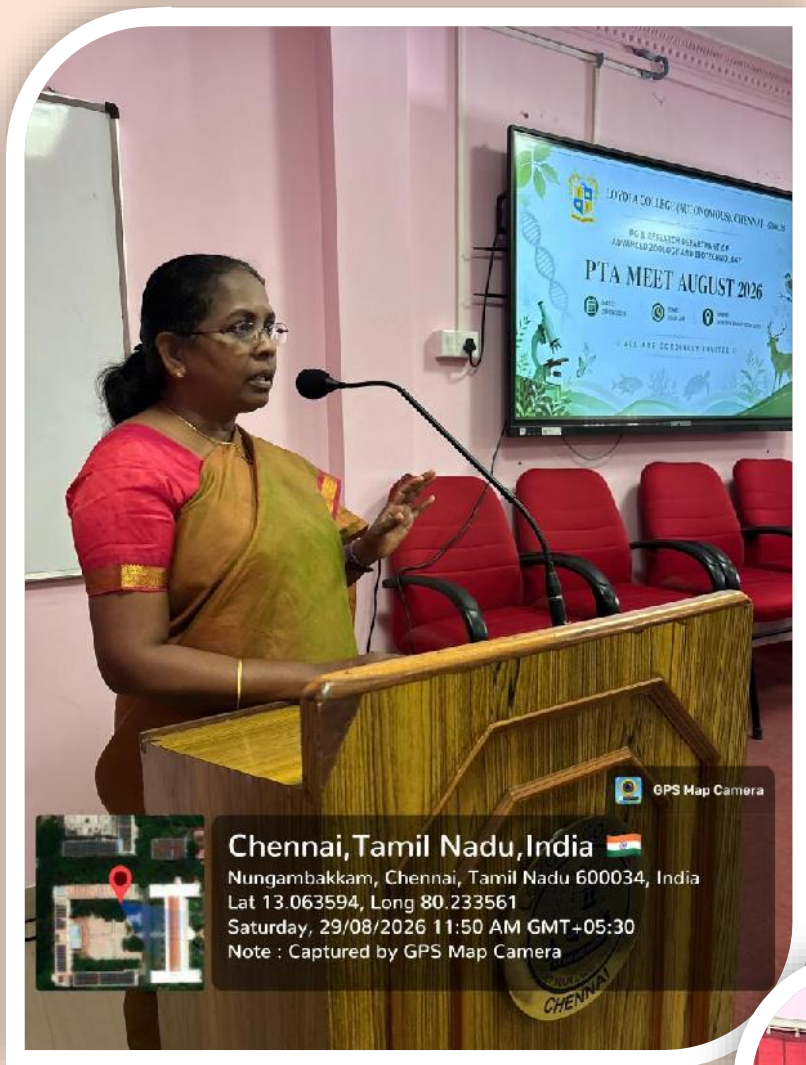

The Head of the Department further encouraged parents to motivate their wards to enrol in **online certification courses such as NPTEL and Coursera**, emphasizing their value in enhancing knowledge, skills, and employability and that credits will be added and shown in the mark list. It was also informed that the **examination fees for eligible online courses would be refunded by the college**, as per the applicable provisions. The newly introduced **Medical Laboratory Technology (MLT) Certificate Course** offered by the department was also highlighted, particularly its potential to enhance students' practical skills and employment opportunities.

Towards the conclusion of the meeting, parents were requested to provide their feedback by **scanning the QR code displayed on the screen**. The feedback link was also shared through the **Parent WhatsApp Group** so that parents who were unable to attend the meeting could also provide their valuable feedback.

The meeting concluded with a **Vote of Thanks** delivered by **Dr. Theresia Mathews**, who expressed gratitude to the parents for their participation, constructive suggestions, and continued support to the department. The parents were subsequently requested to collect the **students' marksheets from their respective class teachers**.

The PTA meeting served as a meaningful platform for strengthening communication between parents and the department and for addressing academic, administrative, and student-development-related concerns. The constructive feedback received from the parents will contribute towards the continued improvement of the department's academic and student-support initiatives.
